Inspection Report
Minerals Regulatory Program
March 15, 2006

Supervisor MQZ

Mine Name: Three Peaks
Operator Name: Western Rock Products
820 North 1080 East
St. George, Utah 84770

Permit number: M/021/039
Inspection Date: February 27, 2006
Time: 9:30 AM

Inspector(s): Doug Jensen
Other Participants: Bob Roth, Western Rock
Mine Status: Active

Weather: Sunny, cool

Elements of Inspection	Evaluated	Comment	Enforcement
1. Permits, Revisions, Transfer, Bonds	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Public Safety (shafts, adits, trash, signs, highwalls)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Protection of Drainages / Erosion Control	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Deleterious Material	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Roads (maintenance, surfacing, dust control, safety)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Concurrent Reclamation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Backfilling/Grading (trenches, pits, roads, highwalls, shafts, drill holes)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Water Impoundments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Soils	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

Inspected the site at the request of the operator to determine whether the Division would consider this operation as a sand and gravel operation.

Inspection Summary:

When I arrived at the quarry, Marty, the crusher foreman, met with me and discussed the operation. A crushing- screening operation was in operation at the time of my visit. Several photos were taken at that time and are included in this report.

When Bob Roth arrived we discussed whether this operation would qualify as a sand and gravel operation. I stated that because the quarry was removing bed rock material the site would require a permit from the Division to operate. Bob stated that he would immediately begin to put together a large mine permit application. As Western Rock is a part of Staker Parson, he stated that he would be working with Mike Dalley to put together the submission. No time frame for this submission was discussed at this time; I did mention the possibility that Western Rock may want to meet with the Division to discuss their operation.

A GPS point was taken to locate the site. No attempt was made to GPS the disturbance at the site due to the fact that the operator would be mapping the area in order to have a map for his permit application. A GPS location map is included with this report.

Inspection Date: February 27, 2006; Report Date: March 15, 2006
Page 2 of 2
M/021/039

Conclusions and Recommendations:

Because the site inspection was at the request of the operator, which was an act of good faith, no enforcement action was taken at the time of my visit.

Inspector's Signature  Date: 3/15/06

Directions to Site:

The site is located approximately 9 miles west of Cedar City along the Lund highway.
